

Liberal Education and America's Promise

Excellence for Everyone as a Nation Goes to College

Partner Campus Commitment

_____ will become a partner with AAC&U in this national advocacy campaign for liberal education¹. In joining this campaign, we pledge that our institution will work proactively to advance liberal education for all students—including those who, historically, have been underserved by the academy. We further pledge to undertake new efforts to communicate with our constituents—trustees, business, policy and community leaders, school educators, parents and students themselves—about the value and important outcomes of a liberal education.

In partnership with the LEAP campaign, we will create new ways both to illuminate the benefits of liberal education to our graduates and to publicize practices—curricular, co-curricular and pedagogical—that help students achieve liberal education outcomes.

We understand that **our designated AAC&U campus representatives and associates** will receive information about LEAP activities and resources for participating campuses. (*You may review/amend your current representatives and associates by contacting Renee Gamache at gamache@aacu.org.*)

We will designate a LEAP liaison, who will be the primary contact person at our institution for any special communications about the LEAP campaign, and with whom AAC&U will coordinate particular LEAP activities.

Our designated LEAP liaison will be _____
Name

Title E-mail address

In addition, **our director of public relations** should be added to our LEAP team: _____
Name

Title E-mail address

Institution

Name of Chief Executive Officer

Signature Date

Name of Chief Academic Officer/Provost

Signature Date
