

## Assessment System Rating Sheet

*Rate your School, College or Department Assessment System in the categories below. A rating of "1" is low and a rating of "5" is high. We will come back to your results to complete an action plan at the conclusion of the workshop.*

1. **Commitment to assessment:** The program has a sustained commitment to assessing student learning as evidenced by supporting structures and budget allocations.

---

1                      2                      3                      4                      5

2. **Expectations for learning:** The programs have explicit expectations that are shared in a variety of ways.

---

1                      2                      3                      4                      5

3. **Engagement:** Students and faculty are actively engaged in the assessment of learning.

---

1                      2                      3                      4                      5

4. **Dialogue:** Assessment of student learning is part of program meetings and general communications.

---

1                      2                      3                      4                      5

5. **Administration:** Resources are allocated to support assessment activities.

---

1                      2                      3                      4                      5

6. **Alignment:** Budget decisions are aligned to and informed by assessment results.

---

1	2	3	4	5
---	---	---	---	---

7. **Decision-making:** Assessment results are used in decision making to improve program quality.

---

1	2	3	4	5
---	---	---	---	---
