

## Designing Learning Spaces to Support Liberal Education Outcomes

Helen L. Chen, Research Scientist (hlchen@stanford.edu)

Dan Gilbert, Academic Technology Specialist (dgilbert@stanford.edu)

Wallenberg Hall, Stanford Center for Innovations in Learning, Stanford University

We invite you to complete this chart to reflect on how pedagogy, space and technology can support the AAC&U learning outcomes on your own campus

AAC&U Outcome	In-class activities	Physical space and/or technology resources
1. Strong analytical, communication, quantitative, and information skills	<ul style="list-style-type: none"> <li>• Compare primary and secondary sources</li> <li>•</li> </ul>	<ul style="list-style-type: none"> <li>• Multiple screens to facilitate comparison</li> <li>• Second writing surface to make thinking visible</li> <li>•</li> </ul>
2. Deep understanding of and hands-on experience with the inquiry practices of disciplines that explore the natural, social, and cultural realms	<ul style="list-style-type: none"> <li>• Interact with remote experts and practitioners in the field</li> <li>•</li> </ul>	<ul style="list-style-type: none"> <li>• iChat to support distant participation</li> <li>•</li> </ul>
3. Intercultural knowledge and collaborative problem-solving skills	<ul style="list-style-type: none"> <li>•</li> </ul>	<ul style="list-style-type: none"> <li>•</li> </ul>
4. A proactive sense of responsibility for individual, civic, and social choices	<ul style="list-style-type: none"> <li>•</li> </ul>	<ul style="list-style-type: none"> <li>•</li> </ul>
5. Habits of mind that foster integrative thinking and the ability to transfer skills and knowledge from one setting to another.	<ul style="list-style-type: none"> <li>•</li> </ul>	<ul style="list-style-type: none"> <li>•</li> </ul>
