THE HONORS COLLEGE PROMISE: Guarantees the student the opportunity to do research or an internship experience.

1 credit—COREP 101: Career Networking & Navigation I
In COREP 101, students will chart their plan for career and leadership development in college by preparing a portfolio.

Course Learning Outcomes:
- Identify potential career paths by reflecting on and analyzing their personal experiences, interests, and skill set.
- Demonstrate appropriate professional behavior by engaging in various professional settings with community partners.
- Demonstrate reflective practices on career and major decisions after engaging in professional activities.

1 credit—COREP 102: Career Networking & Navigation II
COREP 102 builds upon the fundamentals of COREP 101 by furthering students’ career exploration through structured opportunities for reflection and self-examination.

Course Learning Outcomes:
- Develop a working career plan through reflecting on and analyzing knowledge of career options, personal experiences, interests, and skill set.
- Create and evaluate responses to behavioral interview questions through engaging in a mock interview program.
- Demonstrate the ability to craft effective communication based on field-specific knowledge and goals.

2 credits—COREP 201: Honors College Externship
In COREP 201, students extend the professional preparation provided by COREP 101 and 201 through structured work site experiences.

Course Learning Outcomes:
- Demonstrate personal accountability and effective work habits, e.g., punctuality, working productively with others, and effective time and workload management.
- Explain the impact of non-verbal communication on others’ perception of competence and productivity.
- Use industry standards to accomplish professional tasks as applicable in a given work setting.
- Analyze the impacts of personal and group behavior by engaging in a professional work setting.

5 credits—COREP 301: Skills Gap Analysis
COREP 301 is the final CORE class in the Professional Literacy Pathway, which explores professional life within a chosen discipline.

Course Learning Outcomes:
- Identify the wide range of career options and educational opportunities for chosen concentration, including where and how to seek out meaningful positions.
- Illustrate how to find and make effective use of existing career- and training-related resources in order to achieve professional objectives.
- Describe potential obstacles that might prevent the achievement of specific career goals, as well as how to overcome those obstacles.
